# GOOD MORNING CALL ME BE, FOR WORK

● Freelance: I am available

@narayanprusty

Hi, I am a developer, speaker, writer and consultant - focusing on HTML5, JavaScript, WordPress, Blockchain and Cordova. You can outsource your website or mobile app development to me.

Let's get started

HIRE ME →

## VUI Do's and Don'ts

Do this ...

- Follow basic conversational rules and everyday speech patterns
- Apply the principles in Grice's Maxims
- Suggest through intuitive examples of what people can say (without "teaching" them)
- Use acknowledgers to show that the system is listening
- Randomize acknowledgers to make the VUI sound more natural
- Use explicit confirmation for clarity around important requests, and implicit confirmation if a request is less risky to fulfil
- Use "errors" as opportunities for more meaningful (and natural) interactions

# Untitled doc...

All changes saved

I realize today that I have a problem that no man can fix. When everyone else's answer would fail i would do the fixing. I'm running out of tools and duct tape isn't working anymore. I know God is the answer, but I am the type of person that don't like to waste time guessing (that's how I know the duct tape ain't working lol). The answer I need can only come straight from the source....
